

## Fluke CS20MA Current Shunt

## **Overview:**

The CS20MA Current Shunt in intended for use with any of the Scopemeter test tools for ac and dc measurements on 4-20 mA process control loops.

## Specs:

Measurement type Current shunt

**Nominal current range** 4 mA - 20 mA **Continuous current range** 0 mA - 20 mA

Maximum Non-Destructive Current 20 mA Lowest measurable current 0 mA

**Basic Accuracy** 0.1% (% reading + floorspec)

Useable frequency DC -  $\geq$  10 kHz Output level(s) 10 mV/mA

**Safety Specifications** 

Safety 30 V

Maximum voltage 30 V

Wechanical and General SpecificationsWarranty1 yearShrouded banana plugsYes
