

Technical Specification Hygrometer RH 5

- Relative humidity and temperature measurement
- Measurement method without damaging
- Data logger for 10,000 measured values
- Optional analysis software
- Calculation of dew point of -55 ... +60 ° C
- Large graphic display
- Easy handling
- Menu Languages: English, German, French and Italian
- 295 mm sensor length (aluminum)

Technical Specifications for the hygrometer

Measurement range	Humidity: 0 ... 100% H.r. Temperature: -10 ... +60 ° C
Resolution	Moisture: 0.1% H.r. Temperature: 0.1 ° C
Accuracy	Humidity: ± 1.5% H.r. Temperature: ± 0.4% ° C
Response time	<10s
Memory	10.000 values
Port	yes
Power supply	4 x 1,5 V batteries
Housing material / sensor	ABS / aluminium
Sensor dimensions	295 mm
Housing dimensions	145 x 63 x 29
Weight	285 g
