Description

This caliper in general form is available with or without a fine adjustment device and offers you the following advantages:

- On the metric-only models, the upper offset vernier scale allows you to read the internal dimensions directly without having to add the width of the measuring jaws
- The satin chrome surface of the main and vernier scale ensures good legibility

specifications

| | |
|---|--------------------------|
| With locking screw on top: | Yes |
| Graduation value: | 0.02mm/ 0.001" |
| Inside measurement of: | 20.1mm |
| Limit of measurement error E MPE: | ±0.07mm |
| Limit value of the measurement deviation S MPE: | ±0.07mm |
| Scope of delivery: | Delivery in a box |
| Weight: | 3500g _ |
